FINANCIAL AND COMMERCIAL.

WEDNESDAY, NOV. 3-6 P. M. It will be gratifying to every commercial and mancial interest to learn that the movement of the Western crops, which has been so long detayed by the speculative interference of the wheat gambiers, has at length begun, and that the prospect of a full amption of the business in the great staples of four and grain is no illusive one. Some intimation is the fact was given yesterday in the better demand of the fact was given year at the time it was supposed that the domainds of the City Treasury for funds, to meet the payment of certain bonds failing due November 1, was the real secret of the activity. A little lection ought to nave shown, however, that the reentrements of only & few millions could not have been the full and sufficient cause thereof. The by the demand for funds for remittance westward. The suspension in the shipments of the crops was riginally based upon the lower price of gold, the holders looking for a more favorable market to sell apon, and being disappointed by the sharp down-mard turn which gold has taken within the past week. In letting the wheat go at last they have re-peated the example so often set for them in all com-

odities which are the subject of speculation. When gold was up and wheat was high, as compared with sent prices, they would not sell. Like the great present prices, they would not sen. Like the great majority of speculators they sell only when the mar-ket has had a great decline. Whatever the cause or reason, it is the source of great satisfaction that the crops are in motion. The business of the country onsists of a general system of circulation of com odines. Adeadlock in any branch tends to clog the whole stream. The general trade of the country has been suffering from the stagnation in the grain mark t. The movement of the crops means general narket. The movement of the crops means general the following were the closing street prices entirely all around, the better collection of Western the leading Southern bonds:—Tennessee, debts, a new stimulus to Eastern enterprise and a boider and more confident feeling on the part of the capitalists and money lenders, whose funds are the foundation of commerce. The money market was active at seven per cent until toward the close of banking hours, when balances were very freely offering, phowing that the activity, atthough increased, is not sufficient to engage the capital at the deposit of the street. In fact, it remains to be seen whether with the decreased valuations. eg a 64; South Carolina sixes, 70 a 72; do. new, 67 a 67%; City Memphis sixes, 43 a 46.

The range of the gold market was as follows:—

anks, their surplus last week being over \$20,000,000, as drain to move the grain can be summent to create more than a seven per cast mass smallerst. reate more than a seven per cent money market. To the government dealers to-day the rate was quite frregular, and some loans were quoted as low as five per cent. Commercial paper was a little more current, but rates remained unchanged. Foreign prime bankers' sixty day, and 108% a 109 for sight sterling. The changed aspect of affairs produced by the release of the crops and their move-ment to an eastern market was visible In nearly all the departments of business. Thus, as soon as the facts were made known in the Gold Room, and in anticipation of the effects of revived produce shipments to Enrope, gold dropped to 126%. The market was already heavy and susceptible of a decline, owing to the steady disburse at of coin interest from the Treasury in payment of the November coupons and the prospective gov-ernment sales during the month. The abundance of gold upon the market was further reflected in the carrying rates to-day, which ranged from five per cent to seven per cent, the latter figure in some instances being paid in gold— equivalent to nine and a half per cent, The decline in gold was less operative upon the gov-ernment market than might have been expected, but the steadler feeling in the latter was due to free purchases to cover speculative sales, the lower price bonds allowing profitable margin to buyers for elivery. The government speculators are content with a small difference as compared with stock actly great, however, and rendering operations just as remunerative. The 67's sold very freely at 11514, but at the close this figure was actively bid in a steady market. In Southern securities there was a sharp decline in the Tennesses, owing to the decision of the United States Supreme Court, that the State is bound to redeem the notes of the old State Bank of Tennessee. To meet the claims thus arising it will be necessary to issue dditional bonds for the funding of the notes, this nanner of redemption being permissible. On the other hand, the special tax bonds were active and higher, and sold at 44, upon a speculative move-

The effect of the intelligence that the crop moveent had commenced was more particularly visible be feature was an advance in Northwest to 70 4 for common and 86 for the preferred. St. Paul was active, and touched 68 %, while Lake Shore se to 90% and Rock Island to 103%. It should be nembered that the heaviness which attended the stern list after the panic was due to the heavy falling off in freights owing to the retention of grain at the West. Now, however, that the movement predicated upon increased earnings, and the "bears' selling for a decline as the consequence of an expected tight money market following the crop move The sharp upward turn in Northwest to-day sed a great many of the "shorts" to cover, while several purchases of the stock were made "under the rule" for account of those who were unable to make their deliveries. The directors of the North western road held their monthly meeting to-day. A strong feeling was shown in favor of making a three and a half per cent dividend on the common and five per cent on the preferred, parable of the month, but opposition being made on the ground that the increasing receipts leave room for the hope that five per cent can be declared on both reference to a special committee, who are to report at the next monthly meeting, which occurs De ber 3. It is only fair to say, while there have been many objectionable, if not suspicious, features in the returns of this company as submitted to the public, the directors claim that the movement of the crops having begon only within the last few days the exhibit is not an index of their earnings The solivity in the

PISTOL PRACTICE IN THE CHARLESTON (S. C.) CITY COURC L. An Alderman Fires Three Shots at His Alder-

manic Nephew.

At a meeting of the City Council of Charleston, S. C., on Thursday last, a motion was made that the report of a committe in favor of paying \$3,000 to Major Corbin for legal services to the Board be adopted, and was declared by the Mayor, the presiding officer, to be passed. Loud calls for the years and mays were made, and a scene of confusion en-sued. What followed is shown in the following extract from the report of the Charleston Courier:-

and mays were made, and a scene of confusion ensued. What followed is shown in the following extract from the report of the Charleston Convier:—
Alderman E. W. M. Mackey resumed the floor and continued to rebuke the Mayor for his illegat conduct. He alituded to the statement of Alderman T. J. Mackey, which he hinted was not true. At this T. J. Mackey arose very mach excited and said:—"This fellow only brands me with a faischood because he owes it to the place he is in that he is not chastised as he deserves."

Alderman E. W. M. Mackey—Ton need not attempt to buily me. I came here to fight this robbery, and am not alraid of you or of any of the parcel of men who are attempting to rob the elify of \$5,000 to pay your private debts.

Here Alderman T. J. Mackey said, "I will chastise the insolent puppy when he leaves this room," and left the room, daring his nephew to follow him.

Alderman E. W. M. Mackey proceeded promptly to follow him, when he was intercepted by several of the Alderman and brought back to his seat. He then continued to denounce the action of the Mavor, and while he was speaking Alderman T. J. Mackey, who trembled from rage, returned into the room and approached the speaker. As he entered the room his pistol belt could be seen outside of his vest, which gave rise to the presumption that he had string his high the seaw back a few packed, adderman E. W. M. Mackey and observing very excitedly. "If will chastise the fellow," drew a colife navy revolver and struck at him. The blow was warded of, when he drew back a few packe, cocked his pistol, and, aiming it at Alderman E. W. M. Mackey, public the trigger. The pistol failed to go off, when he again oucked it and fired. This had the effect of producing a speedy adjournment of a colife navy revolver and struck at him. The blow was warded of, when he drew backs a few packer, cocked his pistol, and, aiming it at Alderman E. W. M. Mackey, public the trigger.
